JAGANNATHPUR, DHURWA, RANCHI – 834004

Email address: ysmranchi4@gmail.com

(NAAC Accredited, Grade: B++, CGPA: 2.89)

COURSEPLAN

NAME OF THE DEPARTMENT: MATHEMATICS

NAME OF THE FACULTY: Dr. R.C.L Das

Prof Shekhar Suman

Dr. Kandarp Vidyasagar

ACADEMIC SESSION: 2021-2024

YEAR: 2023

PROGRAMME: B.Sc.

SEMESTER: 5

COURSE TYPE: Core

COURSE: Number Theory

COURSE CODE: DSE-1

TOTAL CREDIT: 6 (5+1)

PROGRAMME OUTCOMES (POs):

Student will be able:

PO1: Develop in-depth knowledge of algebra, analysis, calculus, geometry, differential equations and several other branches of mathematics. This also leads to study of related areas like computer science and statistics.

PO2: Analyze intrinsic beauty which can be utilized for solving real life problems through the use of mathematical modelling, cryptography and coding.

PO3: Apply knowledge of mathematical science in understanding and skills to identify the difficult/unsolved problems in mathematics. Realize the given scientific data critically and systematically and to do research so that to get the ability to draw the objective conclusions.

PO4: Understand logically question assertions, to recognize patterns and to distinguish between essential and irrelevant aspects of problems. They also share ideas and insights while seeking and benefitting from knowledge and insight of others. This helps them to learn behave responsibly in a rapidly changing interdependent society.

PO5: This program will also help students to enhance their employability for government jobs, jobs in banking, insurance and investment sectors, data analyst jobs and jobs in various other public and private enterprises.

PO6: Design solutions for complex scientific problems and design processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, legal, constitutional and environmental considerations.

PO7: Demonstrate fundamental systematic knowledge of mathematics and its applications in engineering, science, technology and mathematical sciences. It should also enhance the subject specific knowledge and help in creating jobs in various sectors.

PO8: Demonstrate knowledge and understanding of the scientific principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

PO9: Communicate effectively on complex science activities with the science community and the society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

PO10: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of scientific development, technological advancement and global changes.

PO11: Use research-based knowledge and research-based methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

PO12: To value and foster physical, physiological and psychological well-being by staying committed through personal practice and conduct. Apply the learning for life-long committing to ethics, to fulfill professional and social obligations.

PO13: Apply academic learning for a sustainable living, initiation of entrepreneurial adventures through innovation to create opportunities and wealth for self and society.

PO14: Value and support social causes and rural development through service and philanthropic activities.

PROGRAMME SPECIFIC OUTCOMES (PSO):

PSO1: Understand the requirements in mathematics, drawing from a range of contemporary research works and their applications in diverse areas of mathematical sciences and demonstrate educational skills in the areas of analysis, geometry, algebra, mechanics, differential equations etc.

PSO2: Apply skills and knowledge through on-the-job training, research projects and internships to use appropriate mathematical formulae or techniques in order to process the information and draw the relevant conclusion and creating Mathematical models, algorithms, etc. to facilitate application of mathematics in different professions and knowledge domains.

PSO3: Analyze the applications of Mathematics and computing methods using MATLAB, PYTHON, MATHEMATICA etc. to solve the problems of Science in general and Mathematics in particular.

COURSE OUTCOMES (COs):

Semester-5

Paper: Number Theory (DSE-1)

This course will enable the students to:

CO1: Recognize and analyze the mathematical divisibility and primes, H.C.F., Euclid's Algorithm, unique factorization, perfect numbers.

CO2: Understand the fundamental concepts of Residue class, complete and reduced residue system, congruence and their properties, Fermat's theorem, Wilson's theorem.

CO3: Analyse the significance of the notions of Arithmetical functions, Euler's and Mobius function, Mobius inversion formula

CO4: Apply Algebraic Congruence, solution by inspection, Solution of $ax \equiv b \pmod{c}$, system of linear congruence, Chinese remainder theorem.

CO5: Discuss about The Diophantine equations $ax + by = c, x^2 + y^2 = z^2$. Farey sequence, continued fractions, Pell's equation

CO1: Solid Foundation in Knowledge: Bachelor Degree in Mathematics is the culmination of in-depth knowledge of many core branches of mathematics, viz. Algebra, Calculus,

Yogoda Satsanga Mahavidyalaya

(NAAC Accredited, Grade: B++, CGPA: 2.89)

Geometry, Differential Equations, Mechanics, Real and Complex Analysis. Thus, this course helps students in building a solid foundation for further higher studies and research in Mathematics.

CO2: Competency in Skills: The skills and knowledge gained in this course leads to proficiency in analytical reasoning, critical understanding, analysis and synthesis in order to solve theoretical and practical problems. This can orient students towards applications of mathematics in other disciplines and moreover, can also be utilized in modeling and solving real life problems.

CO3: Problem Solving: Students undergoing this course learn to logically question assertions, to recognize patterns and to distinguish between essential and irrelevant aspects of problems.

CO4: Interdisciplinary and Research Skills: Students completing this course will be able to present mathematics clearly and precisely, make vague ideas precise by formulating them in the language of mathematics, describe mathematical ideas from multiple perspectives and explain fundamental concepts of mathematics to non-mathematicians.

CO5: Proficiency in Employments: This course will help students to enhance their employability for Government jobs, jobs in banking, insurance and investment sectors, data analysis jobs, and jobs in various other public and private enterprises.

A. CORRELATION BETWEEN POs AND COs

POs Cos	PO 1	PO 2	PO 3	PO 4	PO 5	PO 6	PO 7	PO 8	PO 9	PO 10	PO 11	PO 12	PO 13	PO 14	PSO 1	PSO 2	PSO 3
CO1	2	-	3	-	3	2	2	1	1	-	-	2	2	2	3	-	3
CO2	2	1	3	-	2	3	3	1	1	2	3	3	3	3	3	3	3
CO3	-	-	2	2	-	2	2	-	-	1	2	-	2	-	3	2	-
CO4	3	-	-	2	-	-	2	2	2	1	-	2	-	1	3	3	-
CO5	3	2	1	-	2	1	2	-	1	-	2	2	2	-	2	3	2

1. Weak

2. Moderate

3. Strong

COURSE TEACHING AND LEARNING ACTIVITIES

A. PEDAGOGY

i. Whiteboard

ii. PPT

iii. Zoom, Google meet

B. COURSE DELIVERY PLAN:

UNIT	TOPIC/SUBTOPIC	LECTURE REQUIRED	CO ADDRESSED
1	Divisibility and primes, H.C.F., Euclid's Algorithm	6	CO1
2	Unique factorization, perfect numbers	6	CO1
3	Residue class, complete and reduced residue system	6	CO2
4	Congruence and their properties, Fermat's theorem, Wilson's theorem	7	CO2
5	Arithmetical functions	8	CO3
6	Euler's and Mobius function, Mobius inversion formula.	6	CO3
7	Algebraic Congruence	7	CO4
8	System of linear congruence, Chinese remainder theorem	7	CO4
9	Solution by inspection, Solution of $ax \equiv b \pmod{c}$	7	CO4
10	The Diophantine equations $ax + by = c$, $x^2 + y^2 = z^2$	8	CO5
11	Farey sequence, continued fractions, Pell's equation	7	CO5

C. SUGGESTED READINGS

a. TEXT BOOKS:

1. Number Theory–G.H Hardy&E.M Wright.
2. Number Theory–S.G telang.

b. REFERENCE BOOKS

1. Number Theory–Harikisan

c. VIDEO RESOURCE
